WHO IT'S FOR

Offer for employers, recruitment agencies and HR teams

www.jober.uk

Start for free. Run your hiring in one place.

Jobber.uk combines job posting with tools for managing candidates. Basic job listings and the recruiter panel features are free.

Free job posting

Post a job in a few minutes. A basic listing costs £0.

ATS – recruiter panel

Applications, CVs, messages and candidate statuses in one panel.

Screening & match score

Screening questions and a match score help you shortlist the right people faster.

What can you do directly in the panel?

- ✓ view CVs without downloading files and message candidates
- ✓ organise candidates by stage of the hiring process
- ✓ add screening questions and compare candidates' answers
- ✓ create Recruitment projects for roles, locations or clients
- ✓ invite coworkers and clients to work together on a chosen project
- ✓ schedule interviews and hire as a team in one view

For larger-scale hiring: automation and teamwork

When you have more vacancies, Jober.uk can fit into your company's existing hiring process.

External ATS link

Candidates can be redirected from your Jober.uk listing straight to the application form in your own ATS.

XML job import

In the Silver and Gold plans we can set up an import from your XML feed. Jobs are then synchronised automatically.

Recruitment projects

Group jobs and candidates, invite your team or a client and work on a shared candidate path.

Referral programme: **pay for results**

Launch referrals for a chosen job and decide which result you want to pay for. You can pay for delivered CVs or for a successful hire. You set the budget yourself, and unused funds remain at your disposal in line with the programme terms.

For candidates: a free Jober account

With a free candidate account, candidates can track the status of their applications and receive messages and notifications about the next stages of the hiring process.

Boost the visibility of selected jobs

Promotion is optional. You can post standard listings for free and use credits when you want to give a selected job higher priority.

How does XML import work?

You send us a link to your XML feed. The Jober.uk team checks the structure and configures the integration on our side. Once it is live, jobs can be fetched and synchronised automatically, without adding each one by hand. Available in the Silver and Gold plans.

When is a subscription worth it?

- ✓ when you promote jobs regularly and want a pool of credits every month
- ✓ when candidates should apply directly in your external ATS
- ✓ when you need more job postings active at the same time
- ✓ when you post a larger number of jobs and want to automate their import through XML (Silver and Gold)

Jobber.uk can fit **into** your process

You can start with free job posting, promote only selected listings, or connect Jobber.uk with your company's hiring process through ATS links and XML import.

Want to find the right setup for your company?
